

## Vacancy Details : STRUCTURAL ENGINEERS - Italy - Marche Jesi

<b>JOB TITLE</b>	An engineering firm based in the Marche region looking for 2 structural engineers - Province of Ancona – Jesi
<b>Description:</b>	<p><b>What we offer</b></p> <p>Santarelli &amp; Partners Solutions is based in the town of Jesi (Marche region). It is made up of about 20 professionals including engineers, architects and surveyors; has an organizational structure that guarantees every single project activity ranging from the technical assignment development to the management of the entire real estate contract. S&amp;P has always been present in post-earthquake reconstruction with structural calculations and architectural design for the restoration of buildings (1997 Marche and Umbria – 2009 Abruzzo – 2012 Emilia Romagna – 2016 2017 Central Italy). It also has a strong specialization in the health sector (socio – health, hospital and rehabilitation structures) not only in the design but also in the management of the entire order. These skills are strengthened by the use of advanced software (Archicad, Acca, Primus, Namirial...)</p> <p>The environment is multicultural and familiar.</p> <p>In order to meet the language requirements, Italian language courses could be offered, through the EURES TMS project benefits, for people legally resident in Europe who intend to move to Italy, as well as relocation grants.</p> <p><b>Company standards</b></p> <p>"S&amp;P Solutions" strives to provide a customer-defined service of excellence.</p>
