For our **Antwerp office** we are looking for a **Lead Piping Engineer!**

As a Lead Piping Engineer you are responsible for:

You will provide piping engineering services to Worley, and its Customers.

- Deliver piping engineering services that meet Worley, its customers and applicable statutory and regulatory specifications, on time and within budget.
- Perform piping engineering services such as:
 - identify and report changes to project scope;
 - assist with the preparation of proposals, estimates, budgets and schedules;
 - provide assistance during procurement, construction and commissioning activities. For example, write requisitions, conduct technical bid evaluations and write purchase orders;
 - contribute to appropriate studies, analyses and recommend actions;
 - assist with the preparation of detailed designs and drawings, specifications, data, calculations, and reports.
- Keep up to date with the latest developments and technical innovations in piping engineering.
- Communicate effectively with the piping engineering team and project stakeholders, including the Customer.
- Identify issues and problems, develop appropriate solutions, and ask for assistance when required.

We expect you to bring:

- Job specific knowledge: Minimum 10 years of relevant experience
- Industry specific experience:
 - Sound technical and practical engineering skills and ability to consistently deliver quality, accurate and timely work to Worley and its customers.
 - A working knowledge of the fundamental requirements of piping engineering, and the basic requirements of other engineering fields.
 - A working knowledge of applicable local and international standards and statutory and regulatory specifications.
 - Competent use of piping engineering specific software and relevant software such as MS Office Suite.
 - Engineering experience in the same or similar industry.
- Education: Degree or Diploma in relevant discipline (Engineering preferred)
- People skills: Motivational and collaborative communication skills
- Job specific skills: Undertaking Chartered Professional Engineer (CPEng) status.
- Communication skills: Possess oral and written English language skills required to function effectively within a project team, and to communicate with Project Management, Contractors and Subcontractors

What we offer:

Providing an agile culture and challenging work opportunities results in a positive work environment. Our people enjoy competitive compensation packages and a fun, personal, collaborative and safe working

environment. We value equal employment opportunity and are committed to promoting fairness, equality and diversity.

*Our policy is to conduct background checks for all candidates who accept an offer of employment with us. **If you have the passion and talent to keep up, it's time to test the limits of what you can become. Find your future with Worley!***
