

Construction jobs in Bergen, Norway

Information for EU/EEA workers

About Skuteviken Personell AS

Skuteviken Personell AS is a Norwegian staffing and recruitment company based in Bergen. We have been operating since 2006 and supply skilled workers to professional construction companies across the Bergen region and Western Norway. Many of our employees have more than 10 years of service with us, reflecting long-term stability and trust.

Types of positions

- Carpenters
- Concrete workers
- Roofers
- General construction workers

Location

All projects are located in and around Bergen, Norway – a safe city known for its high living standards, strong labour protection and beautiful natural surroundings.

What we offer

- Norwegian employment contract
- Competitive salary according to qualifications and experience
- Holiday pay: 12% of gross salary
- Fully furnished accommodation available for rent (beds and inventory included)
- Travel to and from work covered when distance exceeds 7.5 km
- Flexible work arrangements – many international employees choose work schedules that allow extended periods of time off, often up to several months per year
- Assistance with all necessary practical and administrative procedures required to start working in Norway, including employment contracts, tax card registration and other mandatory formalities
- Safe and regulated working conditions

Life in Bergen

Bergen offers a unique combination of professional opportunities and high quality of life. The city is surrounded by fjords and mountains, with excellent hiking possibilities right outside your door. Popular ski resorts are located approximately one hour from Bergen.

Who can apply

We welcome applications from EU/EEA citizens with relevant experience in construction. A professional attitude, reliability and willingness to work in Norway are essential.
