

Clayton of Belgium nv is looking for a Service Technician

Clayton of Belgium NV, located in Bornem has grown from a family company and has significant international customers within the EMEA region (Europe, Middle East and Africa). For 60 years, we have been providing environmentally conscious process steam solutions.

At Clayton of Belgium you will be working on an interesting technical product within an international company with a family feeling. We are a company where, more than elsewhere, you will have the opportunity to develop yourself professionally.

Are you interested in working in a world of technology, energy, water and steam? Then be sure to read on.

We are looking for a service technician in heart and soul to do maintenance on our steam installations. The work is mainly electrical, mechanical and burner-technical.

From home you will depart with your company car to customers in Belgium, the Netherlands or other countries within the EMEA region.

You are part of a team of service technicians, who are always willing to help you. You can ask your colleagues the most diverse questions.

Because of the 24-hour service that we provide to our customers, you are often confronted with irregular hours as a technician. These hours are compensated appropriately. Business trips abroad and on-call duties are also generously compensated.

Job description:

- As a Service Technician, you take care of the preventive maintenance of steam installations:
 - o You clean ventilators, filters and peripheral equipment
 - o You replace membranes, bearings, shock absorbers and other components (electrical and mechanical)
 - o You check the safety circuit
- You are responsible for the chemical cleaning of the steam installations.
- You perform curative interventions (repairs) on steam installations

Your profile:

- You have a broad technical background and you like to roll up your sleeves
- As you are often on the road, you are in possession of a driving license B
- You have a 24/7 mentality and you are prepared to travel abroad
- A bachelor degree in electromechanics (maintenance techniques) is desirable, but certainly not a must

Our offer:

- We offer a job with a future: in addition to the opportunity to work on a very interesting technical product, there are also interesting career opportunities from this position.
- Tablet, mobile phone, company car, group insurance, hospitalisation insurance, 12 ADV days, two CLA days.
- Very correct compensation for overtime, foreign business trips and urgencies.
- More than elsewhere, you get the opportunity to train and develop yourself.
- You will be working in an organisation that has been providing efficient industrial process steam for over 60 years. Made by people. Now and in the future.

Would you like to join our team? Apply by sending your resume to our human resources department: HR@clayton.be. Do you want more information? Send us an e-mail or call us on the number 03/890.57.16.
