

*GE Maskintjänst is looking for*

## Machine mechanic

### Job duties

As a machine mechanic, your duties consist of shift work in the field or work at our machines workshop, with service and repairs of our machines, which consists of construction and contracting machines. Such as excavators, dozers, wheel loaders, ridged trucks, articulated haulers, trailer, etc.

The work takes place in close collaboration with colleagues within the department. The position is primarily shift work, but daytime hours may occur periodically or by agreement.

### Education experience

We are looking for persons who have equivalent education or experience from the field of work, preferably with a focus on vehicle/machine mechanics. You have basic knowledge of vehicle/machine repairs as well as good Swedish or English skills both spoken and written. Meritorious is if you have education/experience in electronics/diagnostics.

We are looking for a person who are flexible, self-motivated with good cooperation skills and a willingness to work with continuous improvements. You take initiative with good communication skills and are loyal to your employer. Driving license is a requirement with at least B.

We strive for diversity among our employees with regard to gender, age and ethnicity, etc. With us, all employees participate actively to achieve a safe and good working environment. Work environment issues and safety have the highest priority in the field of work.

### We offer

We offer a varied everyday life that enables great personal development in an exciting company that operates in one of Sweden's most development-prone areas. Hundreds of millions will be invested in the area Malmfälten in the north of Sweden over the next few decades. Directly translated Malmfälten means "Ore fields". So, please - Join us on the journey into the future.
