

CIEM MADA offers, as a member of the CIEM Group, customized solutions for renowned international companies in the automotive industry. Through continuous development and improvement of its products, the Italian CIEM and MADA group of companies is represented by 11 companies in 9 countries.

Site manager automotive (m/f/d)

What can you expect?

- You will provide organizational and technical leadership to the installation teams.
- As the face to the customer on site, you are the interface between our production, our suppliers and our project management.
- Ensure occupational safety on the construction site.
- You will be responsible for the entire installation process through to final customer acceptance, considering customer-specific requirements.

What we are offering

- Work in a family-orientated group of companies.
- Work from home for specific office tasks.
- Overtime paid or converted to days off.
- Annual commission or project commission
- Company cell phone / company laptop supplied by the company.
- For travel we have arrangements with car and car sharing providers,
- If you are travelling further afield, we will of course book you a flight or train ticket.

What qualifications and experience do we need?

- You are a team player with organizational talent and strong assertiveness.
- You are used to planning, monitoring, and documenting independently.
- You have interdisciplinary knowledge and construction site experience in the field of conveyor technology as a technician, master craftsman or equivalent qualification.
- You speak and write Italian, German and optionally English.
- You have a class B driving license.
- You are willing to travel and spend long periods on site, mainly in Germany.

Ready to become part of the team?

Then we look forward to receiving your application!
