For our **Antwerp office** we are looking for a **Senior Environmental Engineer!**

We are looking for a **Senior Environmental Engineer** to enable further expansion of our activities in the domain of (waste) water treatment and management.

**As a Senior Environmental Engineer, you are responsible for:**

- Definition of the optimal (waste) water treatment concept for our industrial customers
- Process design of this (waste) water treatment concept
- Cooperation with other disciplines to realize the project
- Execution of Total Water Management studies to identify opportunities to reduce the water footprint of our customers

**We expect you to bring:**

- Job specific knowledge: Minimum 10 years of relevant experience
- Industry specific experience: 10 yrs of experience with design or operation (waste) water treatment plants. Experience with desalination and/or water reuse is an advantage. Knowledge of simulation tools for (waste) water treatment is an advantage.
- Education: Master of sciences in environmental engineering or master of sciences in engineering, preferably with a major in chemistry or environmental engineering
- People skills: Motivational and collaborative communication skills
- Communication skills: Strong communication skills (speaking and writing)
- Language skills: Dutch and English

**What we offer:**

*Providing an agile culture and challenging work opportunities results in a positive work environment. Our people enjoy competitive compensation packages and a fun, personal, collaborative and safe working environment. We value equal employment opportunity and are committed to promoting fairness, equality and diversity.*

*Our policy is to conduct background checks for all candidates who accept an offer of employment with us. **If you have the passion and talent to keep up, it's time to test the limits of what you can become. Find your future with Worley!***
