

Tekla Structural Designer (3D) (m/f/x)

OUDEBURG OR DEERLIJK

IS YOUR PROFILE A MATCH?

As a Tekla Structural Designer, you'll support the execution of various architectural concrete design elements (customised wall elements, balconies, etc.) projects. You'll be responsible for 3D modelling in Tekla and designing the specified reinforcement of the elements to be executed. You draft general, formwork, and reinforcement plans and incorporate the customer's feedback. Among other things, you'll draft detail drawings for production and process the key data in our ERP software for production release. To that end, you'll be working closely with one of our Project Engineers or Project Designers.

If working as a Tekla Structural Designer with us sounds good to you – great! You've got a long career at Verhelst to look forward to.

Are you keen to continue learning and growing? Have you got goals that you're eager to achieve? If so, we offer a wide range of options bound to keep you occupied *and* satisfied! For example, you could work your way up to Project Designer, contribute to the ongoing development of our 3D Tekla Design Software, etc.

WHO WE ARE LOOKING FOR

- You have a degree in architectural studies, e.g. Bachelor of Architecture, Bachelor of Applied Architecture, adult education architectural drafting course, or the equivalent through experience.
- Are you a school leaver, or have you accumulated significant experience? We'll provide you with a customised training programme!

Interesse in een job?

- You're enthusiastic about working with our advanced Tekla design software. Do you have some experience in 2D or 3D modelling, but haven't worked with Tekla yet? Not to worry. We make sure you get the right Tekla training.
- You have sound technical skills.
- Accuracy and teamwork are what you're all about.
- Your commute to Oudenburg or Deerlijk is a reasonable distance.

OUR 'RAW MATERIALS' FOR JOB SATISFACTION

- An open-ended contract (Monday through Friday), meal vouchers, group and hospitalisation insurance, and 12 extra days off (ADV) to enjoy on top of the annual 20-day statutory leave entitlement
- A long career full of learning opportunities, including career development opportunities based on your interests
- Stability and job security in a relaxed, friendly working environment nearby The Verhelst Group is a financially sound business with four generations of experience.
- Our passionate team – enthusiastic about all things concrete – will coach you through your onboarding process.
- Plenty of variety due to the aesthetic customisations we offer our clients along with participation in prestigious projects (e.g. <https://the-crown.momo-estates.be>)
- Close contact with our production team, who make your hard work a tangible reality!
