

GE Maskintjänst is looking for

Mechanic/welder

Job duties

As a machine mechanic/welder, your duties consist of work both in the field or work at our mechanical workshop. The job includes service and repairs of our machines mechanically with welding of buckets, welding and maintaining of crack in heavy equipment. There are also work to be done with maintenance in mining equipment such in places like enrichment plants. Some construction and building of new stairways, mining equipment is also concluded in the work tasks.

The work takes place in close collaboration with colleagues within the department. The position is done either as a normal weekly, day time business or as shift work

Education experience

We are looking for persons who have equivalent education or experience from the field of work, preferably with a focus on welding, construction and work with maintenance of steel constructions. You shall at least have basic knowledge of vehicle/machine repairs as well as good Swedish or English skills both spoken and written. Meritorious is if you have education/experience in electronics/diagnostics and also some knowledge of hydraulics.

We are looking for a person who are flexible, self-motivated with good cooperation skills and a willingness to work with continuous improvements. You take initiative with good communication skills and are loyal to your employer. Driving license is a requirement with at least B.

We strive for diversity among our employees with regard to gender, age and ethnicity, etc. With us, all employees participate actively to achieve a safe and good working environment. Work environment issues and safety have the highest priority in the field of work.

We offer

We offer a varied everyday life that enables great personal development in an exciting company that operates in one of Sweden's most development-prone areas. Hundreds of millions will be invested in the area Malmfälten in the north of Sweden over the next few decades. Directly translated Malmfälten means "Ore fields". So, please - Join us on the journey into the future.
