

Hygiene concept 2021 - Bavaria

Leaflet for **visitors**

Primary protection goals are:

1. enabling the respective current distance rules to be applied
2. traceability of contacts
3. feasibility of the german 3G concept (vaccinated, tested, recovered)

What applies to **visitors**? (As of mid-September 2021):

Access requirements:

- Purchase of a personalised ticket valid for the day. The tickets are available in the event's online shop. Here you must also enter your contact details.
- Admission to the fair for visitors if one of the 3G is proven.
Vaccinated = fully vaccinated from 14 days after final vaccination.
Tested = max. 48 hours young negative PCR test or max. 24 hours old antigen rapid test.
Testing facilities are available in the vicinity of the fair.
Self-tests will not be accepted!
Recovered = COVID infection at least 28 days ago, infection at most 6 months ago or infection longer than 6 months ago plus one vaccination.

Children = from 7 years, regulation of 3G, alternatively a document which credibly proves school attendance (e.g. student card).

Mask obligation:

- medical mask obligation indoors.
- In outdoor areas / open-air area: obligation to wear an medical mask if the minimum distance cannot be maintained.
- In catering areas, the currently valid hygiene concept for catering in Bavaria applies.

Note:

- Children up to 6 years of age are exempt from the mask and test obligation.
- For guests from abroad: Most digital proofs are accepted, in case of doubt contact us.
