THE
EDITORY
COLLECTION
HOTELS

The Editory Collection Hotels is a brand that distinguishes itself from others by the creation of hotels that not only care about serving the guests, but also provide a contemporary experience and an unique lifestyle. This is the community era. The era of collaboration, cooperation, communication. This is a brand for this era.

4 STRATEGIC PRINCIPLES

SUSTAINABILITY

The awareness that we are all pieces of a puzzle that is called planet. Regenerating habits, rearranging decisions, reusing solutions, resizing ambitions, recycling opinions or readjusting the views of efficiency and sustainability.

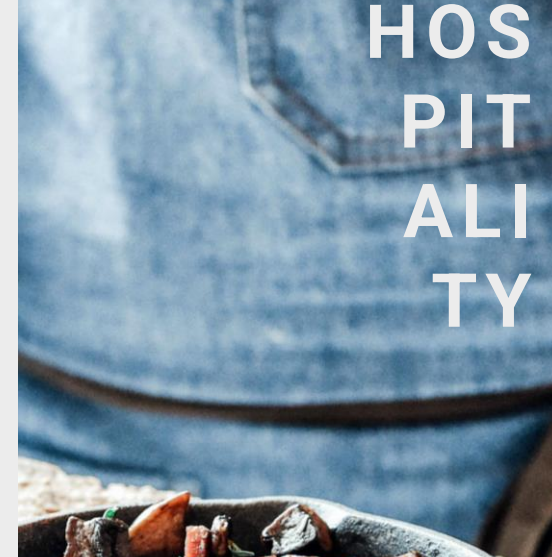

ART

Accommodating the world with an artistic eye, art will always be present, in its liberal representation or, symbolically, in everything we do. We offer a completely different perspective to triviality.

LOCAL

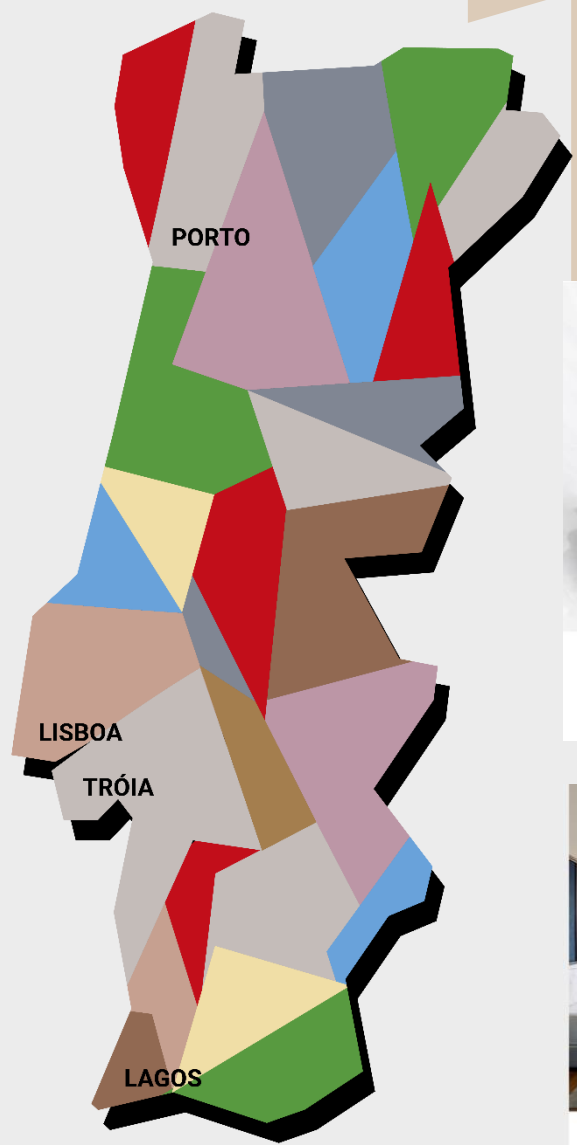

Spaces inspired in places and its people. We are not only in the community. We buy, **add value, participate, contribute, develop**, are a member and integrate our guest.

HOSPITALITY

Being welcoming is our thing, very portuguese. An extraordinary human interaction is an exclusive of The Editory. No other team will be capable of making you feel so special.
